Learning from each other ~ Sharing with the community"

COLIN LEWIS WORKSHOPS

We are going to try a new approach for three of our meetings this year. Colin Lewis will be the guest artist for our March, June & Sept. meetings. There will be continuity to the meetings in that he will be planning & leading all three and members will be asked to select one or two of their trees to bring and follow thru all these workshops. Colin will be addressing three stages of design and discussing the bonsai activities associated with that time of the year. The meeting format for each of the three days will go as follows:

Session 1: 10:00-12:30 PM Open workshop for all members; bring one tree you wish to use in all three of Colin's meetings

Session 2: 1:00-4:00 PM Closed workshop, limit 8 members, fee \$35 for each session; **first come, first in basis**...contact me to sign up. Suggest select one conifer and one deciduous tree to use in these workshops. You do not have to commit to attending all three of these workshops to sign up for the first one. Attendees at this March workshop session will have priority for June workshop. Attendees at the March &/or June workshops will have priority for the Sept. one.

I think this is a great approach, thanks to John C., to learning bonsai since you will be working on the same tree over a six month period and doing it with a great bonsai artist.
